

## **Information for Prospective External Authenticators**

### **NATIONAL EXTERNAL AUTHENTICATOR DIRECTORY**

**Please ensure you read the following information prior to  
registering for a Training Session.**

ETBI has convened a new National External Authenticator Directory (QQI Awards) which was activated in early 2020.

**If you wish to be considered for inclusion onto the Directory accessible to all 16 ETBs, step one of the process is to contact ETBI at [externalauthentication@etbi.ie](mailto:externalauthentication@etbi.ie)**

## About External Authentication:

External authentication provides independent authoritative confirmation of fair and consistent assessment of learners in accordance with national standards. It establishes the credibility of the provider's assessment processes and ensures that assessment evidence has been marked in a valid and reliable way and are compliant with the requirements for the award.

External authentication is undertaken through the assignment of an independent External Authenticator (EA) by the provider for each major, special purpose and supplemental award. The EA must be independent of the centre to which they are assigned. The EA will moderate assessment results for an award or across a number of awards within a related field or sub-field of learning of the major, special purpose, supplemental award. Please see link to the ISCED Fields of Education listing click [here](#).

**The EA will have subject matter expertise in the appropriate field or subfield to which they are applying for/assigned.**

The outcome of the external authentication process is an external authentication report which will comment on the effectiveness of the application of the assessment process and procedures and in particular comment on the extent to which the marks/grades conform to award standards.

External Authentication Reports are retained in the Centre/ETB for monitoring and self-evaluation purposes.

The External Authenticator must declare any potential conflict of interest and maintain confidentiality at all times.

## Role of EA:

The role of the EA is to provide independent confirmation of fair and consistent assessment of learners in line with QQI requirements<sup>1</sup> and to ensure consistency of assessment results with national standards.

### EAs will:

- Perform all authentication duties in accordance with an External Authenticator Professional Code of Conduct
