# ICT Infrastructure Grant Exploring Possibilities (Circular 0039/2024)

Niall Larkin and Shelly Nerney

Oide Digital Technologies Team

# Webinar Learning Intentions

Participants will explore:

- Strategies to make best use of the ICT Infrastructure Grant (Circular 0039/2024) and how it relates to your school context
- How to connect Digital Learning Planning with the Digital Strategy for Schools to 2027
- How to weave available digital technologies into all aspects of learning, teaching and assessment.
- The supports, including professional learning supports available to schools.

# Digital Strategy for Schools to 2027

A key objective of the strategy is to continue to realise the potential of digital technologies to transform the learning experiences of students and to help them to develop key digital skills to facilitate their participation in society and the economy as well as the transition to further and higher education and to the world of work.

## Grant Funding

# ICT Infrastructure Grant 2023/2024

## Funding allocation model applying to the ICT Infrastructure Grant

An Roinn Oideachais  
Department of Education

Circular 0039/2024

**To: The Managerial Authorities, Principals and Teachers of Recognised Primary, Secondary, Community and Comprehensive Schools and the Chief Executives of Education and Training Boards.**

### **Grant Scheme for ICT Infrastructure**

#### Introduction and Purpose

The Digital Strategy for Schools to 2027 is underpinned by an investment of some €200m included in the National Development Plan 2021-2030. The first tranche of funding of €50m under the Digital Strategy for Schools to 2027 issued in respect of the 2021-2022 school year in December 2021.

€50m is issuing now in the form of a grant payment to all eligible schools.

Information on the background to this scheme, the rates and eligibility for this funding, is set out below. This payment will be issued to school bank accounts. **Schools do not have to apply for this grant funding.**

Schools should put in place Digital Learning Plans, which will underpin the utilisation of the ICT grant funding provided. This will also help to optimise this support and inform training and support needs. Future issues of grant funding for ICT infrastructure may require submission of these Plans. Further information on Digital Learning Planning is provided below.

#### Digital Strategy for Schools

The Department's policy on the embedding of digital technologies in education is outlined in the [Digital Strategy for Schools to 2027](#), the successor to the Digital Strategy for Schools 2015-2020.

A key objective of the strategy is to continue to realise the potential of digital technologies to transform the learning experiences of students and to help them to develop key digital skills to facilitate their participation in society and the economy as well as the transition to further and higher education and to the world of work.

Realising this objective will require the provision of funding to support schools to invest in and maintain their ICT infrastructure which will continue to be a priority of the Strategy.

1. All schools, primary, post-primary and special schools, will receive a lump sum of €2,000 (€1,000 in respect of fee-charging schools) per school.
2. A per capita amount will be paid as follows:
  - a. €39.73 per mainstream pupil on the rolls on the 30th September of the year prior to the issue of the grant, in mainstream primary schools,
  - b. €47.67 per special needs pupil on the rolls on the 30th September of the year prior to the issue of the grant, in special classes attached to mainstream schools, and per pupil in special schools.
  - c. €43.70 per pupil on the rolls on the 30th September of the year prior to the issue of the grant in DEIS category primary schools.
  - d. €47.67 per student on the rolls on the 30th September of the year prior to the issue of the grant in post-primary schools.
  - e. €52.44 per student on the rolls on the 30th September of the year prior to the issue of the grant in DEIS category post-primary schools.
  - f. €23.84 per student on the rolls on the 30th September of the year prior to the issue of the grant per student in fee-charging schools.

# ICT Infrastructure Grant 2023/2024

## Sample Primary School

Rural DEIS primary school with 100 pupils on the roll since September 30th will receive €6370

Mainstream primary school with 220 pupils on the roll since September 30th will receive €10740.60

# ICT Infrastructure Grant 2023/2024

## Sample Post Primary Schools

Mainstream DEIS Post primary school with 350 students on the roll since September 30th will receive €20,354

Mainstream Post primary school with 1000 students on the roll since September 30th will receive €49,670

# Digital Learning Planning

## 3. Digital Learning Action Plan

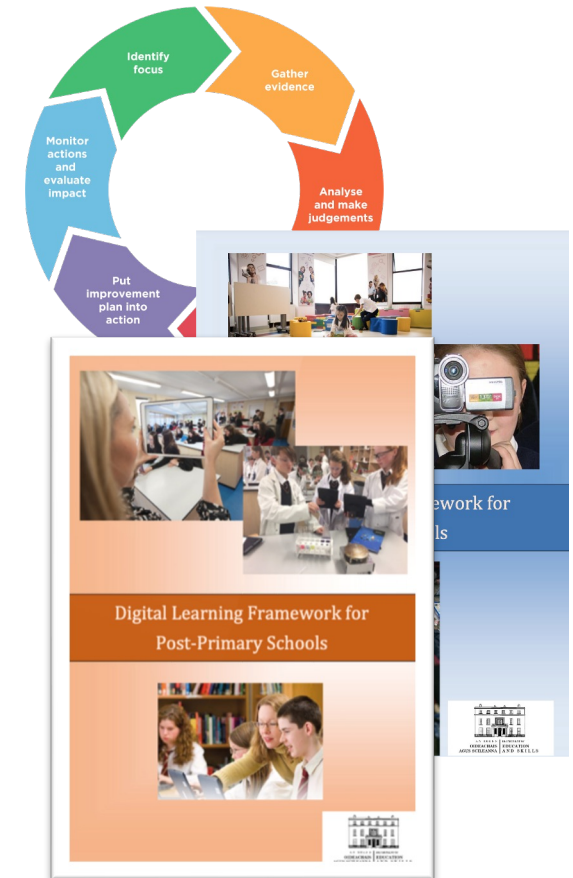

Dimension: <b>Teaching &amp; Learning</b>	Domain: <b>LEARNER EXPERIENCES</b>
Standard: <b>1.1 Pupils enjoy their learning, are motivated to learn and expect to achieve as learners</b>	
Statement(s) of Practice:	
<b>TARGET(S):</b> <i>(These are generally based on learners acquiring new knowledge, skills and/or attitudes as well as the method of attainment. They should lead to improved learner outcomes).</i>	
•	

Actions are specific, measurable, achievable, realistic and timebound (SMART) activities that will be required to achieve that target.

ACTION (What needs to be done?)	CRITERIA FOR SUCCESS (What are the desired outcomes?)	PERSONS RESPONSIBLE (Who is to do it?)	TIMEFRAME (When is it to be done by?)	ACTION COMPLETED?

### MONITORING & EVALUATION PROCEDURES

How are we going to monitor our progress? Do we need to make adjustments? Have we achieved our target(s)? How do we know?

# Digital Learning Framework Refresher

## Primary – teaching and learning

### DOMAIN 3: TEACHERS' INDIVIDUAL PRACTICE

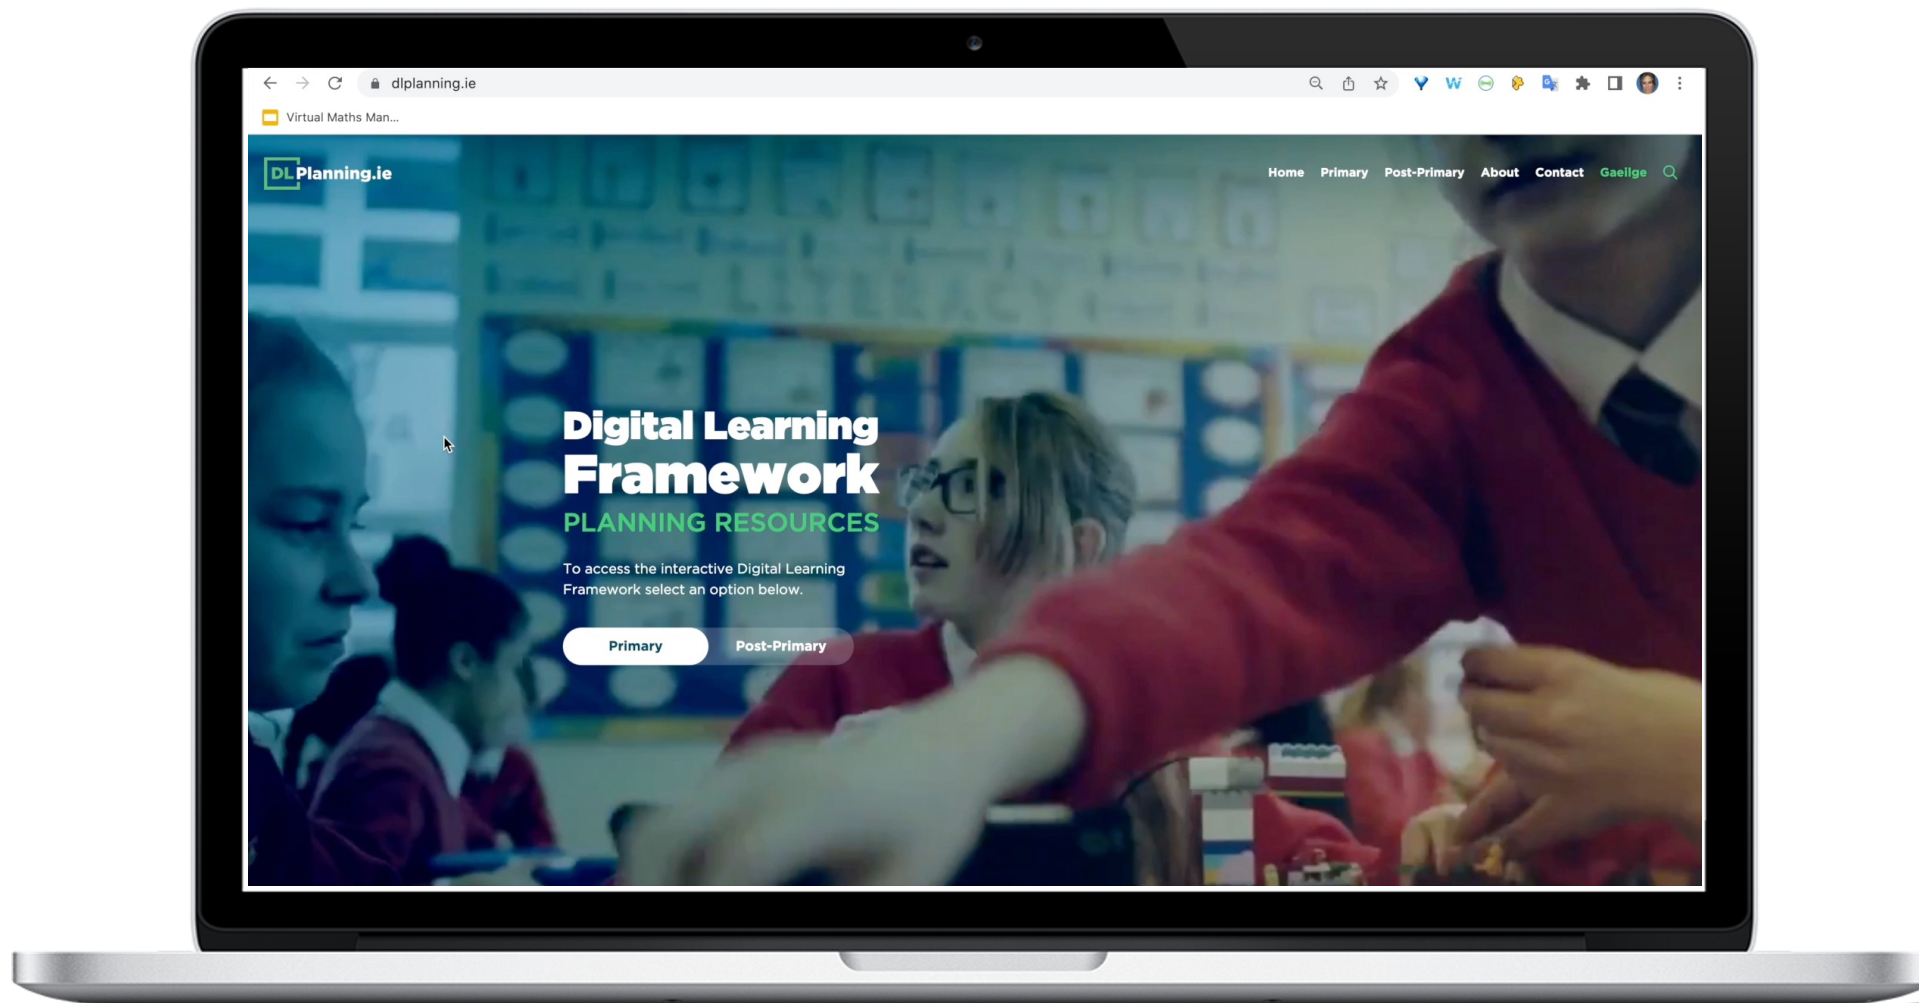

STANDARDS	STATEMENTS OF EFFECTIVE PRACTICE	STATEMENTS OF HIGHLY EFFECTIVE PRACTICE
<b>The teacher has the requisite subject knowledge, pedagogical knowledge and classroom management skills</b>	<p>Teachers use a range of digital technologies to design learning and assessment activities for their pupils.</p> <p>Teachers design or adapt learning experiences that incorporate digital technologies and make learning activities relevant and meaningful to support pupils' learning.</p> <p>When teachers use digital learning activities, they evaluate their effectiveness, and revise their teaching strategies accordingly.</p>	<p>Teachers use a range of digital technologies to design new opportunities for learning, teaching and assessment.</p> <p>Teachers model high-level teaching, knowledge and skills, using digital technologies to support pupil creativity, innovation and knowledge creation.</p> <p>Teachers critically reflect and experiment with a range of digital learning activities, continuously evaluate their effectiveness, and revise their teaching strategies accordingly.</p>

# Developing a Digital Learning Plan

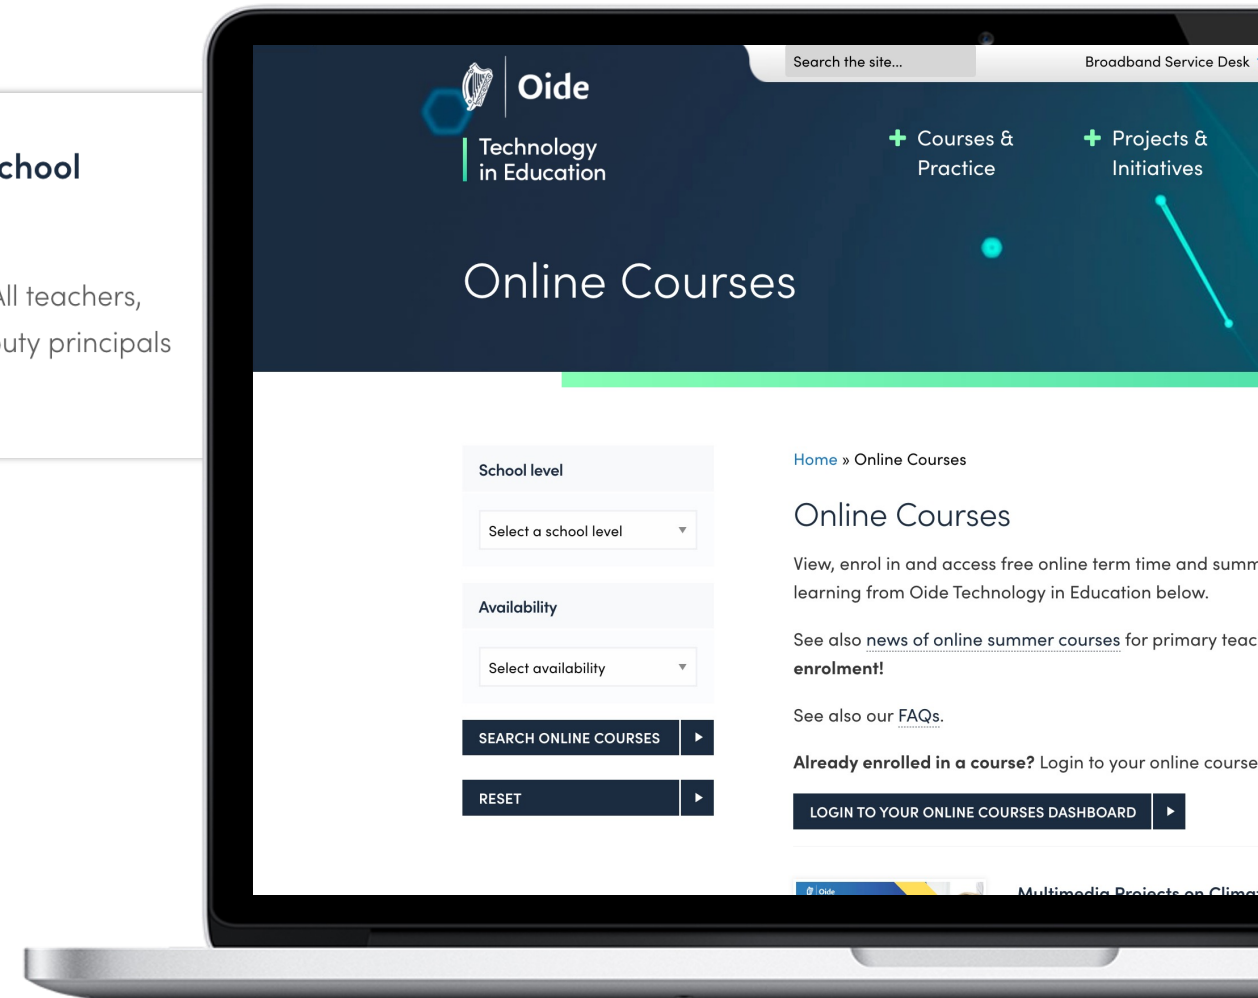

## Developing a Digital Learning Plan for your School – Short Version

**Course dates:** 21-08-23 to 21-06-24

**Study time:** 4 hours

**Target audience:** All teachers, principals and deputy principals

**Places:** Unlimited

# What can grant funding be used for?

Teacher  
Devices

Student  
Devices

Interactive flat  
panels

Wifi and networking  
equipment

Cloud-based  
tools

Learning programmes  
and apps

ICT Equipment

Maintenance

# What should we buy?

- Consider your current devices
- What digital learning platform are you using?
- How many devices do you need? What classes will be using the devices?
- What is the lifespan of the devices you are looking at?

# Device Life Spans

The average desktop computer will last between **5 and 8 years**.

The lifespan of a laptop is approximately **5 years**.

The lifespan of tablets is **4-5 years**.

An interactive whiteboard will usually last around **7-8 years**.

An interactive flat screen lifespan is **10 years**.
